## Introduction

Ce qui a commencé comme une rumeur, que les Plaines D'Abraham appartenait à un de mes ancêtres, m'a fait poursuivre un cheminement ancestral d'une durée de huit années. J'aurais probablement jamais fini de faire mes recherches, mais, j'ai décidé de publier ce que j'avais jusqu'ici pour vous donner la chance de connaître votre passé et vos ancêtres.

Tout en faisant mes recherches, j'ai trouvé une nouvelle fenêtre sur le passé: les oeuvres quotidiennes, les peines et les joies de ceux qui vivaient d'une journée à l'autre. Face au travail de traduire mon ouvrage d'une langue à l'autre, j'ai dû doubler l'entrée de l'information sur mon ordinateur. Cela m'a amené à mieux retenir la mémoire de mes ancêtres. De même que la publication de ce livre laissera vivre cette mémoire.

Je dédie ce livre au souvenir de mes parents, Aristide Côté et Gertrude Hudon et, à un oncle préféré, Eudore Côté, qui m'a dirigé dans le passé avec ses premières indications d'ancêtres. Prêtre, missionnaire, historien, "voyageur", ce fut un homme doué, inspiré par sa passion, qui a fait impression sur l'esprit de toutes personnes qui on eu l'avantage de l'avoir connue.

Les mariages inclus sont descendants directe de Jean Côté et Anne Martin. L'information a été accumulé de différentes sources donc les liens de peuvent être guaranties.

## Introduction

What began many years ago as a rumour that placed the Plains of Abraham in my ancestry set me off on a journey that has taken a full 8 years to get to this point. Although I will probably never finish this genealogical endeavour I have decided to publish what I have discovered so far and allow others to reach into their past as I have done.

What I have also discovered is a new look at the past. What things were like, what tasks there were, what hardships had to be overcome, just to get by another day. All this, I learned through research but in the end through the keying of all the historical information twice, mind you, in French and English. I also learned a new respect for the names and relationships of all those spirits of the past. Their memory has been extended a bit longer through this effort and hopefully, their memory will survive through the passing on of this publication.

I would like to dedicate this work to my parents Aristide Côté and Gertrude Hudon and to a favourite uncle Eudore Côté who directed me into the past with his first indications of ancestors. Priest, missionary, friend and "voyageur", he has touched the spirit of many more people than one can ever know.

All marriages listed are direct descendants of Jean Côté and Anne Martin. The accumulation is from many sources and therefore, family linkages cannot be guaranteed.

## Les Premiers Côté

### Costé (Côté)

Famille originaire du pays de Caux, en Normandie, où elle possède des terres et fiefs, depuis Saint Louis. La preuve s'en tire des Lettres d'affranchissement émanées de ce Prince, datées du mois de juillet 1259. données en faveur de Roger Côté, par lesquelles son Fief de Senneville, est affranchi de certaines redevances, dont l'original a été communiqué par Pierre Côté, Chevalier, Seigneur de Friqueville, chef de la branche cadette de son nom, propriétaire actuel de ce même Fief qui lui était échu lors des partages de la séparation des branches, et qui a toujours été possédé sans interruptions, depuis Saint Louis, dans cette famille, ainsi qu'il est constaté par tous les Registres de la Chambre des Comptes de Normandie, et par l'épithaphe de Jean Côté, Seigneur d'Harfleur, qui subsiste encore dans ladite Paroisse de Senneville, où il a été inhumé dans l'an 1535.

Cette famille était connue même avant Saint Louis dans cette Province: il ne faut qu'en consulter L'Histoire dans laquelle il est mention d'Hugues Côté, dans les listes et dénombrenements des Seigneurs et Chevaliers qui firent le voyage outre-mer en 1191, avec Richard, surnomé Coeur de Lion, Duc de Normandie et Roi D'Angleterre.

Les terres de Saint-Suplix, Buglise et Saint-Barthélemy, sont entrées dans la famille de Côté, de chef de Jeanne de Normant, fille de Jean le Normant, Seigneur desdites terres, qui épousa Pierre Côté, Seigneur d'Harfleur, de Ridelieu et de Nonneville, qui mourut en 1577, Doyen de la Chambre des Comptes de Normandie et Conseiller d'Etat.

La Seigneurie de Saint-Suplix fut érigée en Châtellenie en faveur de Pierre Côté, fils du nom, petit fils du précédent, mort Doyen du Parlement de Normandie, Conseiller d'Etat et Privé, et un des Commissaires de la Cour pour la réformation de la Coutume de cette Province.

Alexandre Côté, Marquis de Saint Suplix, Conseiller au Parlement de Normandie, épousa Marguerite de Blais, Baronne de Crepon, Dame de

## The First Côté's

### Costé (Côté)

Original family from Caux, Normandy which owned lands and fiefdoms ever since Saint-Louis. The proof can be seen in the letters of assignment which were issued by that prince, dated July 1259, by which his Fief of Senneville is attached with certain conditions, the original of which was communicated by Pierre Côté, Knight, Seigneur of Friqueville, eldest of the branch of the family bearing his name, proprietor of that same fief which was given to him during the sharing of the separation of the family branches, and was always in the family, without interruption, since Saint Louis. This is confirmed by all the registers of the Counts of Normandy and on the epitaph of Jean Côté, Seigneur d'Harfleur, who lies buried in the parish of Senneville, where he died in 1535.

This family was known, in this province, even before the time of Saint Louis. We need only to consult History in which we see the name of Hugues Côté in the lists and enumerations of the Knights and Seigneurs who went over seas with Richard, known as the Lion Heart, Duke of Normandy and King of England.

The lands of Saint-Suplix, Buglise, and Saint-Barthélemy, became property of the Côté family through Jeanne de Normant, daughter of Jean le Normant, Seigneur of the said lands, who married Pierre Côté, Seigneur of Harfleur, of Ridelieu and of Nonneville. Pierre Côté died in 1577, member of the Chamber of Counts of Normandy and Counsellor to the State.

The Seigneurie of Saint-Suplix was created in Châtellenie in favour of Pierre Côté, second of that name, grandson of the first Pierre Côté. He died member of the Chamber of Counts of Normandy, State and private Counsellor and a Commissar of the Court for reformation of the customs in that province.

Alexandre Côté Marquis of Saint-Suplix, Counsellor to the Parliament of Normandy, married Marguerite Blais, Baroness of Crepon, Dame de Vaux, Grais and other areas. She was goddaughter of king Louis XIV and daughter of Jean de Blais. Of that marriage were born:

Costé Chateau – Mairie(city Hall) – Harfleur

Dans le courant de l'année 1635, un des conseiller au parlement de Rouen, Pierre Costé, seigneur de St.Supplix, petite paroisse aujourd'hui réunie à OCTEVILLE, désirant obtenir droit de cité à Harfleur, se rendit acquéreur d'une modeste habitation sur les bords de la rue Notre- Dame. Il augmenta cette propriété peu de temps après, par

During the year 1635, one of the counsellors to the parliament of Rouen, Pierre Costé, Lord of St.Supplix, small parish today united to OCTEVILLE, wanting to get the rights to the city of Harfleur, purchased a modest dwelling on the side of the street Notre Dame. He added to this property a short time later, by a concession, that

## Descendants de/of Jean Cote

la concession, qu'il obtint d'une partie des anciens fossés et remparts de HARFLEUR, ville déjà déchue de son ancienne splendeur et dont le démantèlement venait d'être décidé. Cette partie des fortifications comprenait tous ce qui se trouve entre la porte de MONTIVILLIERS et la tour de la Chaîne derrière le presbytère.

Pierre Costé, se contenta pendant 18 ans de son modeste domaine de HARFLEUR avec son titre de simple bourgeois. Mais l'appétit des grandeurs s'étant fait sentir chez lui, il voulut s'arrondir comme on dit vulgairement et dominer même les citoyens d'HARFLEUR, qui jusque là et depuis plusieurs siècles, avaient exonérés des tributs de la féodalité.

Par un acte d'échange passé le 6 mars 1653, devant les notaires de MONTIVILLIERS et de HARFLEUR, Pierre Costé obtint de M. de la Tour, curé de cette dernière paroisse, la cession du presbytère, c'est à dire, de la maison, grange, cour et jardin, s'étendant entre la rue Notre- Dame et les remparts. Le presbytère fut alors reporté vers l'Ouest, là où il est actuellement.

Devenu ainsi à la tête d'un territoire assez vaste, Pierre Costé, qui était très pressé, puisque l'échange avait lieu quelques jours avant Pâques et qu'il devait avoir la disposition de l'ancien presbytère, dès cette époque, M. Pierre Costé disons-nous, fit bâtir le château actuel dans le style de l'époque. De plus en 1657, il fit ériger son domaine en seigneurie, sous les titres de fiefs et châtellerie de saint Martin de Harfleur, mais cette érection fut critiquée.

Telle est l'origine de ce château qui a toujours été possédé par les Costé de St. Supplix, d'où est descendue par la filiation suivante, la famille de la Bédoyère. Pierre Costé eut pour successeur un fils Alexandre mort en 1700 et un petit fils du même nom, mort en 1747. Ce dernier eut deux filles, Angélique-Alexandrine, épouse de Jean- Baptiste Fabry, comte d'Autray, et Marie- Angélique, mariée à M. Noël Florimond Huchet ».

### L'Histoire Ancienne des COTE

Languedoc est une région dans le sud de France. On croit que le nom de Famille COTE à originé dans cette région. Additionnel à ses frontières présentes étaient aussi compris Toulouse et une partie du Massif Central. Sa Capitale est Toulouse. Les

he obtained for part of old ditch and battlements of HARFLEUR, city already fallen from its old splendor and whose dismantling had just been decided. This part of fortifications encompassed all what is between the door of MONTIVILLIERS and the tour de la Chaîne behind the rectory.

Pierre Costé, was content during 18 years with his modest domain of HARFLEUR and his title of simple bourgeois. But greater things were in his mind, he wanted to expand and dominate the citizens of HARFLEUR, that until then and since several centuries, had exonerated tributes of feudalism.

By an exchange act passed March 6, 1653, before notaries of MONTIVILLIERS and of HARFLEUR, Pierre Costé obtained from M. de la Tour, vicar of this parish, the transfer of the rectory, that is to say, of the house, barn, court and garden, spreading between the street Notre Dame and the battlements. The rectory was moved westward, there where it is currently.

Having become owner of a vast enough territory, Pierre Costé, who was in a hurry, since the exchange took place a few days before Easter and that he had to have the ownership of the old rectory, at that time. Pierre Costé constructed the present castle in the style of the time. In addition, in 1657, he had his domain elevated to lordship, under titles of fiefs and châtelleries of Saint Martin de Harfleur, but this elevation was criticized.

Such is the origin of this castle that has always been in the possession of the Costés of St Supplix, from which descended the family of de la Bédoyère. Pierre Costé had for successor a son Alexandre who died in 1700 and a grandndson of the same name, who died in 1747. This last one had two girls, Angelique-Alexandrine, wife of Jean - Baptist Fabry, count of Autray, and Marie - Angelique, wife of M. Noël Florimond Huchet».

### The Ancient History of COTE

Languedoc is a region in the South of France. The Family name Cote is believed to have originated in this region. Additional to its present boundaries it also included Toulouse and part of the Central Massif. Its

## Descendants de/of Jean Cote

Romains ont occupé la région dans l'an 120. Dans le 5e siècle la région était envahie par les Vandales, Sueves et le Visigoths. Plus tard, dans le 5 Siècle, les Francs conquis Languedoc. La capitale, Toulouse, était aussi la capitale du royaume ancien d'Aquitaine. Le nom de famille COTE fût trouvé dans Languedoc, où ils sont enregistrés comme une des anciennes familles distinguées dans cette région.

Des changements à l'épellation a eu lieu dans la plupart de surnoms. Normalement une personne a vocalisé sa version de son de nom, à un écrivain, un prêtre, ou un enregistreur. La France est devenue connaissant de sa position principale Européenne au début du 16e siècle. Le Nouveau Monde pressait. Les explorateurs conduisirent les missionnaires aux colonies Nord Américaines le long de la côte de l'est comprenant, Nouvelle France, Nouvelle Angleterre, Nouveau Pays-Bas et Nouvelle Espagne. Jacques Cartier fit les trois premiers voyages en Nouvelle France en 1534. Les Jésuites, Champlain et les missionnaires d'Église sont venus 1608. Les plans pour développer Québec sont tombés court du bût de la Compagnie de Nouvelle France. Champlain a amené le premier émigrant, Louis Hébert, un apothicaire Parisien, et sa famille en 1617.

En 1643, 109 ans après les premiers débarquements par Cartier, il y avait à peu près 300 personnes à Québec. La migration était lente. On encourageait des jeunes mariages désespérément parmi les immigrants. Le commerce de fourrure a attiré des émigrants, à la fois noble et plus commun. 15,000 explorateurs ont quitté Montreal à la fin de 17e et 18 siècles. Par 1675, il y avait plus de 7000 Français à Québec. Par la même année, la présence Acadienne dans la Nouvelle Ecosse, le Nouveau Brunswick et L'île du Prince Edward avait atteint 500. En 1755, 10,000 Acadiens Français avaient refusé de prendre le serment de fidélité à l'Angleterre et ont été déporté à la Louisiane. Les Français ont fondé le Bas Canada et ainsi sont devenu une des deux grandes nations fondantes du Canada.

Parmi les colons en Amérique du Nord avec ce nom distingué COTE étaient Elez COTE, 22 ans, établi en Virginia en 1635; Johann Hennrich Cothe établi en Pennsylvania en 1738; Auguste Kott, 27 ans, établi au Texas en 1846; et Friedrich Wilhelm Kott, 60 ans, établi au Texas en 1846 avec sa femme Auguste Weymann 52; Elizabeth Côté établi dans Virginia en 1653.

France became aware of her European leadership in the early 16th century. The New World beckoned. The explorers led missionaries to North American settlements along the eastern seaboard including, New France, New England, New Holland and New Spain. Jacques Cartier made the first three voyages to New France in 1534. The Jesuits, Champlain and the Church missionaries came in 1608. His plans for developing Quebec fell far short of the objectives of the Company of New France. Champlain brought the first true migrant, Louis Hébert, a Parisian apothecary, and his family, who arrived in 1617.

In 1643, 109 years after the first landings by Cartier, there were only about 300 people in Québec. Migration was slow. Early marriage was desperately encouraged amongst the immigrants. The fur trade attracted migrants, both noble and commoner. 15,000 explorers left Montreal in the late 17th and 18th centuries. By 1675, there were more than 7000 French in Québec. By the same year, the Acadian presence in Nova Scotia, New Brunswick and Prince Edward Island had reached 500. IN 1755, 10,000 French Acadians refused to take the oath of allegiance to England and were deported to Louisiana. The French founded Lower Canada, thus becoming one of the two great founding nations of Canada. Amongst the settlers in North America for this distinguished name Cote were Elez Cote, aged 22, settled in Virginia in 1635; Johann Hennrich Cothe settled in Pennsylvania in 1738; Auguste Kott, aged 27, settled in Texas in 1846; and Friedrich Wilhelm Kott, aged 60, settled in Texas in 1846 with his wife Auguste Weymann 52; Elizabeth Côté settled in Virginia in 1653.

Personne n'ignore, car cela a été dit et écrit maintes et maintes fois , que la plupart de nos ancêtres furent des cultivateurs, des "habitants" comme l'ont disait à l'époque.

Ce que l'on connaît par contre, c'est la façon dont ils s'organisaient dans leur travail, ces premiers laboureurs du sol de la Nouvelle France, et la manière dont ils traitaient leurs affaires de tous les jours .

Pénétrons donc plus avant dans les détails de leur vie et parlons de notre ancêtre Jean Côté.

C'est au printemps de 1634 que Jean Côté traversa l'Océan en compagnie d'un groupe de colons du Perche, recrutés par Robert Giffard, le Seigneur de Beauport. Comme la plupart de ses semblables, il ne pouvait en effet songer à venir en Nouvelle-France pour s'établir sur une ferme à lui. Il s'était donc mis au service d'un colon, plus ancien que lui dans le pays.

Quelques années plus tard, par devant notaire, Jean Côté s'engageait de nouveau à exploiter les terres du Seigneur Giffard. Cet engagement, il est vrai, n'avait rien de commun avec celui d'un "domestique de ferme". C'était plutôt une location, qui laissait au locataire des conditions assez avantageuses. Ce dernier, aux termes du contract, avait en effet droit de "faire et prendre (ses) foings, et d'y faire herbager (ses) bestiaux... ainsi que bon lui semblera".

## Jean Costé (Côté)

No one can deny, since it has been stated and written many times, that most of the settlers of Canada were cultivators or "habitants" as they were called then.

We know very little about the daily routines and trials of these tillers of the soil of New France, or, the way in which they handled their daily routines.

Let's take a look at our ancestor Jean Côté and see what has been documented about his daily life.

It was in the spring of 1634 when Jean Côté crossed the Atlantic Ocean along with a group of colonist from Perche Normandy who were recruited by Robert Giffard, Seigneur of Beauport. Like all his peers, Jean Côté could only dream of coming to the new world on his own. He had made himself available as a farm hand to a colonist already in New France.

A few years later, in the presence of a notary public, Jean Côté engaged himself in the exploitation of the lands of Seigneur Giffard. This had nothing in common with his previous task as "farm hand" but was more of a rental which left the tenant some advantages. The later, in terms of the contract, could, in effect "grow and harvest hay, graze his animals... as he sees fit to".

Jean Côté did not miss the opportunity to profit from this contract. Another notarized document tells us that he sold to the Company of New France five hundred bales of hay for the sum of 80 livres (approximately \$ 80.00).

## Descendants de/of Jean Cote

Jean Côté ne manqua évidemment pas de mettre cette clause à profit. Une autre notarié nous apprend qu'il vendit à la Compagnie de la Nouvelle-France cinq cents bottes de foin pour la somme de 80 livres (environ \$80.00).

Par contre l'obligation que contractait le locataire était assez légère . Elle consistait a donner "une journée de travail par chacun an, pour chaque beste excepté les veaux".

Après quelques années passées ainsi au service d'un Seigneur, le cultivateur cherchait à s'établir à son compte. C'est ce que fit Jean Côté.

En février 1645, il se faisait conséder une terre, cette fois-ci bien à lui, sur laquelle il se mit à travailler d'arrache-pied.

Une vie simple et calme, voilà ce que connut notre ancêtre Jean Côté. Il avait épousé à Québec en 1635 Anne Martin, fille d'Abraham Martin. De ce mariage sont issus les millers de Côté du Canada.

C'est au printemps de 1634 que Jean Côté traversa l'océan en compagnie d'un groupe de colons du Perche, recrutés par Robert Giffard, le seigneur de Beauport. Il arrive a Québec après un voyage sur mer d'environ deux mois.

Il s'établir d'abord a Québec sur un terrain de 150 pieds par 60, a côté de l'église Notre-Dame-de-Recouvrance, au coins des rues actuelle Buade et du Trésor.

Le 17 novembre, 1635, il épousa Anne Martin, née en 1614, à l'église Notre-Dame. Les témoins sont le Seigneur Robert Giffard et Guillaume Couillard. Huit enfants naîtront de cette union au cours des 15 années suivantes. C'est le missionnaire Jésuite, le Père Lallemant qui béni cette union.

Anne Martin est marraine le 18 Juillet 1635 avec Robert Giffard du premier enfant de Noël Langlois nommé Robert.

En 1635, le 5 Février, Jean Côté reçoit en concession une terre de trois arpents de front par

The obligations of this contract were fairly light and resonable. They consisted of .."donating one day's labour each year for each head of cattle excepting calves".

Generally, such servants to the Seigneur would seek to establish themselves on their own lands. And so did Jean Côté.

In February 1645, he obtained his own parcel of land and immediately started to clear it for cultivation.

A quiet and simple life, this is what our ancestor Jean Côté knew. He married Anne Martin, daughter of Abraham Martin, on the 17 of November 1635. From this union issued all the Côté's of Canada.

On the Louis Hébert monument at the City Hall in Québec we can find a plaque commemorating the first settlers of Canada. Among these is the name Jean Côté.

### Jean Côté

It was in the spring of 1634 that Jean Côté crosses the Atlantic accompanied by a group of colonists recruited by Robert Giffard, Seigneur de Beauport. He arrived in Québec after a sea voyage of approximately 2 months.

He settled at first in Québec on a lot of 150 feet by 60 beside the Notre-Dame-de-Recouvrance church which is situated today at the corner of Buade and du Trésor streets.

On the 17th of November 1635, he and Anne Martin, who was born in 1614, were married at Notre-Dame church. Witnesses were Robert Giffard and Guillaume Couillard. Eight children would be born from this union during the next 15 years. The Jesuit Missionary, Charles Lallemant, one of the Canadian Martyrs, blessed their union.

Anne Martin became godmother, on the 18th of July 1635 with Robert Giffard of the first born of Noël Langlois named Robert.

On February 5th, 1645, Jean Côté received a grant of land, 3 arpents frontage by 126, on the shore of the St-

Le 15 novembre 1649, Jean Côté donne en cadeau de noces à sa fille Simone, qui épousa Pierre Soumande, le 10 novembre de la même année, sa propriété près de l'église Notre-Dame. À cette époque, le père devait donner à sa fille une dot assez importante en argent sinon en effets.

En 1662, il obtient un nouveau terrain de 5 arpents, 79 perches par 10 arpents de profondeur au bourg du Fargy (Giffard à l'envers) près de la rivière Beauport, au nord de l'église actuelle. {Un arpent carré égale à peu près 1.5 acres. 1 arpent égale 1,260 verges}.

Jean Côté meurt à Beauport, le 28 mars 1661, après 26 ans de vie conjugale. Il doit avoir entre 50 et 60 ans. Aucun de ses garçons n'est marié à ce moment. Louise, la seule fille qui reste à la maison a 10 ans. Mais elle quittera le foyer moins de 3 ans après pour se marier.

Jean Côté est l'un des premiers pionniers arrivé à Québec. Il a été témoin d'une croissance très rapide et dynamique du projet de Champlain. Sa tâche sera maintenant poursuivie par une population d'environ 550 habitants, regroupés de plus de 70 foyers.

En 1634, le 4 décembre, après avoir survécu 23 ans à son époux, Anne Martin, veuve de Jean Côté, meurt à l'âge de 81 ans. Elle résidait à Beauport.

Arrivée seule au pays de moins de 50 ans auparavant, elle laisse derrière elle, une famille d'environ 50 descendants.

D'après un document de 1689, quatre des fils de Jean Côté; Noël, Mathieu, Jean et Martin, ont des terres voisines à l'ouest de l'église St-Pierre sur l'île d'Orléans.

À ce moment, cette paroisse existe à peine depuis 10 ans. Des lots y ont été concédés peu à peu et les gens ont été les défricher en faisant la traversée à partir de la côte de Beauport jusqu'à l'île.

L'été il faut un canot, l'hiver, c'est plus facile puisqu'un pont de glace se forme.

La vieille église qui s'y trouve encore aujourd'hui, fut bâtie en 1718.

On compte ces garçons de Jean Côté parmi les fondateurs de la paroisse St-Pierre de l'île d'Orléans et c'est là que c'est écoulée toute entière leur vie de

Lawrence, in the Seigneurie of Beauport.

On the 15th of November 1649, he gives, as wedding gift to his daughter Simone, his property near Notre-Dame church. She married Pierre Soumande on the 10 of November of the same year. At that time, a father had to provide his daughter with a substantial dowry of money or property.

In 1662, he obtained a new piece of land of 5 arpents, 79 perches by 10 arpents deep in the bourg of Du Fargy (Giffard read backwards) near the Beauport river just north of today's church. {One square arpent equals approximately 1.5 acres. One arpent equals 1,260 yards.}

Jean Côté died in Beauport on the 28th of March 1661, after 23 years of marriage. He must have been between 50 and 60 years old. None of his sons were married and Louise, the only daughter at home is 10 years old. She will leave home 3 years later to marry.

Jean Côté is one of the first settlers in Québec. He witnessed a rapid growth in Champlain's dynamic project. His task would now be pursued by a population of approximately 550 inhabitants spread out among over 70 homes.

In 1684, on December 4th, after surviving her husband by 23 years, Anne Martin dies in Beauport at the age of 81. She leaves about 50 descendants after less than 50 years in the country.

In a document dated 1689 it is noted that Jean Côté's four sons: Noël, Mathieu, Jean and Martin have neighbouring farms to the west of the church of St-Pierre on the Island of Orleans.

At that time, the parish had barely existed for 10 years. Little by little lots have been granted to the parish and the people cleared these lots by crossing the river from Beauport to the island. In the summer canoes were used and in the winter, the ice surface was used to cross over.

The old church which is there today, was built in 1718.

On its walls is a plaque dedicated to the first parishioners which include the sons of Jean Côté since it was here that they spent their entire lives as true pioneers.

Only after three generations was the migration of the Côté's to take place.

vrais pionniers.

C'est donc la troisième génération seulement que la migration des Côté va véritablement commencer.

L'ancêtre Jean débarqua Québec en 1634, La famille Côté compte des milliers de représentants de par le Canada et les Etats Unis. Rares sont les villages de la province de Québec qui n'ont pas, de nos jours, une famille du nom de Côté; nom qui n'a subi que les mutations exigées par la grammaire. (Costé - Côté).

### Abraham Martin

Abraham Martin, notre premier grand-père maternel Canadien, est remarquable pour avoir été, avec Louis Hébert, un des premiers colons du Canada et, pour avoir légué son nom aux célèbres Plaines D'Abraham.

Il était pilote de la rivière Saint Laurent et, avec sa femme Marguerite Langlois, ont laissé par leur filles une très nombreuse postérité. Dans les archives des Dames Ursulines sont les titres de deux terres qui lui ont appartenu. Ces deux terres réunis furent vendues aux héritiers de Maître Abraham.

La terre d'Abraham Martin reçut le nom de "Plaines D'Abraham", non ensuite étendu au plateau voisin, sur lequel fut levé la célèbre bataille entre Wolfe et Montcalm.

En outre que les fameuses plaines historiques de Québec furent baptisé es du nom de cet illustre colon, comme pilote du Saint-Laurent, il fut donc à la source de notre marine nationale. Premier pilote, c'est lui qui jeta les rudiments de la première carte du fleuve.

Il est intéressant de noter que le petit navire qui faisait dernièrement le service des pilotes à la Pointe- aux-Père, près de Rimouski, portait le nom du premier pilote canadien Abraham Martin. Il faisait le service de paire avec le "Jalobert", nom du premier pilote français qui vint avec Cartier.

Premier défricheur et premier pilote, Abraham Martin a donc par son courage et ses connaissances se tailler une réputation impérissable dont notre histoire gardera toujours la mémoire. La Société Historique de la Province de Québec inaugura en juin 1923 son monument dans la

Our ancestor, Jean Côté, arrived in Québec in 1634. The Côté Family now numbers thousands throughout Canada and the United States. It is rare not to find a Côté in any village or town in the Province of Québec. The name suffered only a grammatical change from Costé to Côté.

### Abraham Martin

Abraham Martin, our first Canadian maternal grand father, was, with Louis Hébert, one of the first colonists of Canada. His name remains with us as it is attached to the famous Plains of Abraham.

He was a pilot on the Saint-Lawrence river and, with his wife, Marguerite Langlois, left us through their daughters a long line of Canadians. In the archives the Dames Ursulines are stored the titles to two parcels of land which belonged to him. United, these lands were sold to the descendants of Master Abraham.

Abraham Martin's land were known as the "Plains of Abraham" and this name was also attached to adjoining lands where Wolfe and Montcalm fought their famous battle.

Abraham, as the first pilot of the Saint Lawrence river, was the first to put together rudimentary maps of that landmark.

It is interesting to note that the small ship that provides pilot services at Poite-aux-Père near Rimouski carried the name of this famous pilot Abraham Martin and its sister ship, the name of "Jalobert" the first French pilot who came here with Cartier.

First clearer of lands and first river pilot, Abraham Martin carved out, through his knowledge and courage, a reputation that will remain in our history. In 1923, the Historic Society of Quebec dedicated a

monument to him in the old lower part of Québec city.

## Abraham Martin

Abraham Martin (dit "l'Ecosais" ou "Maître Abraham", pilote, né en France en 1589, mort à Québec le 8 Septembre 1664.

Abraham Martin arriva en Nouvelle-France vers 1620 avec sa femme, Marguerite Langlois sa sœur Françoise et son beau-frère Pierre Desportes (les parents d'Hélène Desportes). Martin a pu être d'ascendance écossaise, ou il a pu prendre le sobriquet, soit qu'il servit dans l'armée, soit qu'il fit partie d'une organisation clandestine: ces noms étaient employés pour masquer l'identité des déserteurs, ou celle des membres d'une organisation illégale au cas où ses documents seraient saisis. Il est également possible qu'on l'ait appelé ainsi parce qu'il avait accompli plusieurs voyages en Ecosse durant sa jeunesse. On n'est pas absolument sûr qu'il a été pilote officiel, encore qu'on lui ait parfois donné le titre de "pilote du Roi" de son vivant. En tout cas, il est prouvé qu'il se leva à la pêche jusque dans le golfe du Saint-Laurent.

Les Plaines d'Abraham seraient ainsi appelées à cause de lui. Une anecdote pittoresque rapporte que la "Côte d'Abraham" était sentier emprunté par Martin pour descendre à la rivière Saint-Charles abreuver ses animaux. Son domaine comprenait 32 arpents (environ 48 acres) en tout, 12 arpents octroyés par la Compagnie de la Nouvelle-France en 1635 et 20 reçus en cadeau de sieur Adrien du Chesne, chirurgien naval de Pierre Legardeur de Repentigny en 1645. Cette propriété fut vendue par la famille Martin aux Ursulines en 1667. Il est possible qu'il s'agisse du même Martin employé par Jean de Biencourt, et De Gua de Monts comme navigateur sur la côte de l'Acadie, bien qu'il fût alors très jeune. Lorsque David Kirk prit Québec en 1629 et laissa son frère Lewis comme gouverneur jusqu'en 1632, Martin et sa famille demeurèrent à Québec. Plus tard, Martin baissa dans l'estime de ses concitoyens, lorsqu'il fut accusé de conduite impréhensible envers une jeune fille de Québec. Il fût emprisonné le 15 février 1649 pour ce motif.

Les archives indiquent qu'Abraham Martin et Marie (Marguerite?) Langlois eurent neuf ou dix enfants. Anne Martin, née en France et mariée le 17 novembre 1635 à Jean Côté, n'était probablement pas sa fille. Eustache, baptisé le 24 octobre 1621 et filleul d'Eustache Boullé, fut le premier Canadien de naissance. Marguerite, née le 4 janvier 1624 et

## Abraham Martin

Abraham Martin ("The Scotsman" or "Master Abraham") pilot, born in France in 1589, died at Québec on the 8th of September 1664.

Abraham Martin arrived in New France about 1620 with his wife, Marguerite Langlois, her sister Françoise and her brother in law Pierre Desportes (the parents of Hélène Desportes). Martin could have been of Scottish descent, or he may have taken on a nickname because he had served in the army or he may have belonged to a clandestine organization. Nicknames were used to hide identities of deserters or those members of illegal organizations in case their documents were seized. It is equally possible that he was named so because he had made numerous voyages to Scotland in his youth. We are not absolutely certain that he was made official pilot, even if the title "royal pilot" as given him during his lifetime. In any case, it is proven that he fished all along the Saint-Lawrence all the way to the gulf.

The plains of Abraham would also be named after him. An interesting anecdote tells us that "Abraham's hill" was a right of way that Martin used to bring his cattle to the waters of the Saint-Charles river. His lands were 32 arpents (about 48 acres) made up of 12 arpents granted by the Company of New France in 1635 and 20 more received as a gift from Sieur Adrien Du Chesne, naval surgeon to Pierre Legardeur de Repentigny in 1645. This property was sold by the Martin Family to the Ursuline Nuns in 1667. It is possible that this same Martin was employed by Jean de Biencourt and Du Gua de Monts as navigator on the Acadian coast while he was still very young. When David Kirk took Québec in 1629 and left his brother Lewis as governor until 1632, Martin and his family stayed in Québec. Later, Martin lost face with the citizens when he was accused of atrocities towards a young girl from Québec. He was jailed on February 15th of 1649 for that act.

The archives show that Abraham Martin and Marguerite Langlois had nine or ten children. Anne Martin, born in France in 1635 and married to Jean Côté the 17th of November 1635 was probably not his daughter. Eustache, baptised on October 24 1621 is the godson of Eustache Boullé and was the first Canadian born. Marguerite, born January 4 1624 and married May 22 1638 to Etienne Racine had many descendants including the two Bishops Racine. Hélène, born June 21 1627 was goddaughter of Samuel de Champlain. mariée le 22 mai 1638 à Etienne Racine, eût de nombreux descendants, y compris les deux évêques Racine. Hélène, née le 21 juin 1627, était la filleule de Samuel de Champlain. Elle épousa d'abord Claude Etienne, en 1640, puis Médard Chouart des Groseillers, le 3 septembre 1647. Charles-Amador, né le 7 mars 1648, filleul de Charles de Saint-Etienne de La Tour, fût second prêtre né au Canada. Il est possible que le frère Dominique Scot, mentionné dans les Relations des Jésuites comme s'étant rendu en Huronie encore jeune homme, ait également été l'un de ses fils. On peut aussi supposer qu'un jeune homme qui est désigné comme s'étant rendu en Huronie à la même époque (1634-1635) fut Eustache Martin.

### Les Plaines D'Abraham

Le nom de Plaines D'Abraham se donne dans notre histoire dit M. P.-J.-O. Chauveau, à tout ce vaste plateau qui s'étend sous les ramparts de Québec et qui se termine au sud par une côte abrupte et dentelé de petites anses sur le Saint-Laurent, et de l'autre par un coteau moins élevé qui sépare de la vallée de la rivière Saint-Charles.

D'où vient ce nom de Plaines d'Abraham?

Abraham Martin dit l'Ecossais a une histoire assez obscure. On a prétendu qu'il était d'origine Ecossaise. Les preuves écrites manquent abominablement pour appuyer cette prétention. Le surnom l'Ecossais donné à Abraham Martin est cependant une présomption en faveur de cette opinion.

Martin dit l'Ecossais arriva à Québec avec Marguerite Langlois, sa femme, et leur fille Anne en 1619.

C'est cet Abraham Martin qui a laissé son prénom aux plaines où les armées française et anglaise se rencontrèrent le 13 septembre 1759 et le 28 avril 1760.

Le premier concessionnaire de ce terrain fut le chirurgien Adrien Duchesne, qui en fit don à sieur Martin, ainsi que le démontre le document suivant:

"Nous soussignés certifions à qui il appartiendra que l'an dernier, mil six cent quarante-cinq, que le sieur Adrien Duchesne chirurgien dans le navire de M. De Repentigny, étant à Québec, nous dit qu'il avait donné la terre qui lui a été donnée en la ville de Québec à Abraham Martin, pilote de la rivière, et qu'il y pouvait faire travailler en toute assurance. Si le temps lui eût permis d'en passer contrat de

de Saint-Etienne de La Tour, was the second priest ordained in Canada. It is possible that Brother Dominique Scot, mentioned in the Jesuite Relations, as having arrived in Huronia still a young man is equally one of his sons. We may also suppose that a young man identified as arriving in Huronia at the same time (1634-1635) was Eustache Martin.

### The Plains of Abraham

According to Mr. P.-J.-O. Chauveau, this historical name applies to the vast plateau which extends below the ramparts of Québec and which terminates to the south by a steep hill on the Saint-Lawrence river and on the other side a smaller hill which separates it from the valley of the Saint-Charles river.

Where does this name come from?

Abraham Martin known as The Scotsman has a confusing history. We have assumed that he was from Scotland but any written proofs do not support this. The nickname given to Abraham Martin is a presumption of these opinions.

It is Abraham Martin who has left his name to the plains where the French and English forces met on September 13 1759 and again on April 28 1760.

The first owner of this land was the surgeon, Adrien Duchesne, who gifted it to Mr. Martin as noted in the following document:

"We, the undersigned, certify to whom it may concern, that last year, 1645, Sieur Adrien Duchesne naval surgeon on the ship of Mr. De Repentigny, being in Québec, told us that he had given the land, which was given to him in the town of Québec, to Abraham Martin river pilot, and that he could work it as he saw fit. If time permitted to prepare a contract of the gift, he would have done so. This we attest to as the truth. Made this 15th day of August 1646."

The document was signed by six citizens of Québec: MMS Giffard, Tronquet, Latardif, Delaunay, Bissot and Guitet.

A document notarized by Lacoustre, notary in Québec, dated December 1647, qualifies Abraham Martin as

donation, il l'aurait fait. Ce que nous attestons être véritable. Fait ce quinzième jour d'août mil six cent quarante- six."

Cette pièce était signée par six citoyens de Québec, MM. Giffard, Tronquet, Letardif, Delaunay, Bissot et Guitet.

Une acte de Lecoustre, notaire à Québec, du 27 décembre 1647, qualifie Martin de pilot royal en ce pays.

Voilà deux documents authentiques qui affirment que Martin était pilote de la rivière, c'est-à-dire du Saint-Laurent.

Nous avons donc le droit de le proclamer "le premier pilote du roi en ce pays" aussi longtemps qu'on pourrat nous fournir les noms de ceux qui l'ont précédé dans cette charge.

Abraham Martin décéda a Québec le 8 septembre 1664.

Le 1er juin 1667, les héritiers de Martin vendaient aux Dames Ursulines de Québec "la quantité de trente-deux arpents de terre défrichées, situées en la benlieu de Québec avec une maison et une grange sur la dite terre". C'est là la concession qu'Abraham Martin avait reçu de Duchesne, avec en plus douze arpents que les MM. de la Compagne lui avaient donnés par contrat du 16 mai 1650. Les Dames Ursulines payèrent leur acquisition douze cents livres tournois.

En 1759, les Dames Ursulines étaient encore propriétaires des Plaines D'Abraham.

M. Chauveau disait des Plaines d'Abraham en 1863:

"Si du reste il n'était point remarquable au point de vue historique, ce lieu ne laisserait point que de mériter une grande réputation par la beauté du paysage que l'on y découvre. Deux grandes voies parallèles le parcourent, l'une du côté du Saint-Laurent, l'autre du côté de la rivière Saint-Charles: la première s'appelle la Grande-Allée ou chemin Saint Louis, et le second sur le chemin Sainte-Foy.

Chaque position a aussi son monument, l'un élevé en l'honneur de Wolfe, à l'endroit même où il succombait, l'autre à l'honneur des braves de 1760, à l'endroit où se livrait le plus fort de la bataille, sur le site du moulin de Dumont."

royal pilot in this country.

Above are two authentic documents which confirm that Abraham Martin was river pilot, that is, of the Saint-Lawrence.

We have the right then to proclaim him "first royal pilot in this country" until anyone can provide the names of those who preceded him in that capacity.

Abraham Martin died at Québec September 8 1664.

June 1st 1667, the descendants of Abraham Martin sold to the Ursuline Nuns of Québec "a lot of 32 arpents of cleared land, situated within Québec city, with a house and a barn on that same land". This was the concessions that Abraham Martin had received from Duchesne along with more than 12 arpents given to him by the Company of New France May 16 1650. The Ursulines paid 1200 "livres" for their acquisition. In 1759, the nuns were still in possession of the Plains of Abraham.

In 1863, Mr. Chauveau described the Plains of Abraham:

"Even if historically there was nothing to them, this land merits to be know for its beauty. Two great roads parallel the lands. One follows the Saint-Lawrence, the other the Saint-Charles river. The first is named Grande-Allée or chemin Saint-Louis

and the other chemin Sainte-Foy.

Each position has its own monument as well. One raised to honor Wolfe, at the spot where he died, and the other to the brave of 1760, at the spot where the heat of battle was, on the site of the Dumont Mill.

## Abraham Martin

Abraham Martin dit l'Ecossais (inhumé 1664), pilote, cultivateur, commis de la Compagnie des Marchants.

On a contesté la date de sa naissance (1589), en raison de l'âge attribué à sa fille Anne, qui épousa Jean Côté, le 17 Novembre 1635; elle serait née d'une première union, puisque Marguerite Langlois donna naissance à son dernier enfant en 1648, ce qui reporte sa naissance personnelle à l'année 1600 environ. De plus, Abraham n'est pas venu à Québec en 1613 ou 1614, n'y ayant eu alors aucun arrivage, mais il y aborda vers 1619 ou 1620, avec son épouse et sa fille Anne, née d'un premier mariage (v. Bull. des Rech. hist. 1922).

Martin fut d'abord employé au service de la Compagnie de Rouen et ses émoluments lui permirent de mettre les siens à l'abri du besoin. Il se livra, dans la suite, à la culture: deux de ces terres furent plus tard vendues par les héritiers aux Ursulines: la première mesurant 20 arpents, lui fut donnée en 1646 par le chirurgien Deschesne (V. ce nom) et la seconde, de 12 arpents, était une concession des Cent Associés

En 1647, il reçut le titre de pilote royal. On le dit dans le Journal des Jésuites que ce mois de juin 1647, maître Abraham avec deux gendres, s'en alla pour la première fois, à la pêche des loups-marin: il en prit, la vielle de Saint-Jean, 4 à l'Île Rouge proche de Tadoussac, dont il fit six barriques d'huile. "Au premier de l'an (1646), nous donnâmes en étrennes quatre mouchoirs à la femme d'Abraham et à lui une bouteille d'eau-de-vie". Le 19 janvier 1649, "la première exécution à la main du bourreau eut lieu sur une créature de 15 ou 16 ans, larronesse; on accusait en même temps M. Abraham de l'avoir violée; il en fut en prison et son procès différé à l'arrivée des vaisseaux". Il mourut en septembre 1664, ayant demeuré à Québec en 1629-32.

D'après les recherches de M. Massicotte, il paraît certain que sa fille Anne naquit vers les 1603.

## Abraham Martin

Abraham Martin, "the Scotsman" (buried in 1664), pilot, clerk of the Company of Merchants.

The date of his birth has been contested (1589) because of the age of his daughter Anne who married Jean Côté November 17 1635 at Québec: she must have been born of a previous marriage since Marguerite Langlois gave birth to her last child in 1648 which brings her own birth back to around 1600. In addition, Abraham did not arrive in New France in 1613 or 1614, since there were no arrivals, but must have arrived in 1619 or 1620 with his wife and daughter Anne born of his first marriage. (see Bulletin de Recherches Historique 1922).

Martin was first employed by the Company of Rouen and his payments from this allowed him to keep his assets until needed. He then applied himself to cultivating: two of his farms were sold later by his descendants to the Ursulines; the first of 20 arpents was given to him in 1646 by Deschesne (see that name), and the second of 12 arpents was a concession to him by the Company of Cents Associés (company of 100 associated).

In 1647, he received the title of royal pilot. We can read it in the Jesuite Journals, that on that month, in June 1647, master Abraham and two sons-in-law went to fish for seals (?). On the eve of Saint-Jean, they caught 4 at l'Île Rouge (red island) of which they obtained 6 small barrels of oil. "On new year's day (1646), we gave four handkerchiefs to the wife of Abraham and to him a bottle of spirits". On January 19 1649, "the first execution at the hands of the executionner took place on a creature (girl) of 15 or 16, a thief; at the same time, Abraham was accused of violating her; he was jailed until the arrival of the ships" He died September 1664 having stayed in Québec in 1629-32.

From his research, Mr. Massicotte is certain that Anne Martin was born around 1603.

l'histoire--Abraham Martin dit L'Ecosais. C'était sur sa ferme ou a eu lieu la fameuse bataille des Plaines D'Abraham entre Wolfe et Montcalme.

Abraham Martin portait le sobriquet de "l'Ecosais" et a ce sujet, j'ai récemment lu un article dans la publication "Mémoires" de la Société Généalogique de Montréal qui décrivait un voyage de recherche par un membre qui voulait prouver sans doute si Abraham Martin était Ecosais ou non. L'auteur et chercheur a découvert une tombe à Dundee en Ecosse avec l'inscription suivante:

"Ici en enterré un homme honnête, Abraham Martine, Français, chirurgien et barbier, fils légitime d'Abraham Martine, marchand, citoyen de la ville de Metz en Lorraine, France, qui est mort le 13 juin 1673. Il avait 57 ans."

Cet Abraham Martine qui était sepulcré à Dundee aurait été né en 1616, seulement deux ans avant le départ d'Abraham Martin pour la Nouvelle France. En conclusion, on pourrait déduire que le sobriquet D'Abraham Martin est dû à ses voyages en Ecosse...

### Anne Martin

Au sujet de Anne Martin qui épousa Jean Côté à Québec, le 17 Novembre 1635, était-elle fille d'Abraham Martin dit l'Ecosais et de Marguerite Langlois?

Voilà une question qui a préoccupé certains des nombreux descendants des colons Martin et Côté. Le patient chercheur que fut le défunt Léandre Lamontagne coulut un jour en avoir le coeur net et il s'attela à la tâche. Puis, il m'apporta ses notes et me confia ses conclusions. Pour lui, Abraham Martin devait être né avant 1589, il avait dû se marier deux fois et Anne était sa fille d'un premier mariage; enfin ledit Martin ne pouvait être venu s'établir en la Nouvelle-France qu'en 1619 ou après.

Et voici sur quoi se basait le sagace généalogiste:

A) Anne Martin ne peut être née en 1614 comme le dit Mgr Tanguay dans son Dictionnaire, Vol I P 415. Elle naquit plus tôt, c'est-à-dire en 1603 (1) ou en 1604 (2).

was Abraham Martin dit l'Ecosais. It was on his farm that General Wolfe and Montcalm fought the battle for the city of Québec, and the struggle has since been called the Battle of the Plains of Abraham.

You will note that I called him Abraham Martin dit l'Ecosais. For those who have not heard the expression "dit" it is the French word for said or called. In other words, Abraham Martin was nick-named "L'Ecosais" or "The Scotsman". Just recently I read an article in "Mémoires"---a quarterly publication of the Genealogical Society of Montréal, which describes a research trip with the objective of proving once and for all whether Abraham Martin was in truth a Scotsman. The author and searcher had found during his travels a tombstone in Dundee, Scotland, with the following inscription: "Here lies an honest man, Abraham Martine, Frenchman, surgeon and barber, lawful son of Abraham Martine, merchant, burgess of the city of Mertz, in Lorraine, France, who departed from this life 13 June 1673. His age being 57 years." This Abraham Martine who was buried in Dundee, would have been born in 1616, just 2 years before Abraham Martin dit l'Ecosais set sail for Canada. It may therefore be assumed that our Abraham travelled to Scotland from France and perhaps derived his nickname from these travels...

### Anne Martin

On the subject of Anne Martin, daughter of Abraham Martin "the Scotsman" and wife of Jean Côté. Was she the daughter of Abraham Martin and Marguerite Langlois?

Here is a question which has preoccupied the numerous descendants of Martin and Côté. The patient researcher who was the late Léandre Lamontagne, wanted one day to pursue this task and clear his doubts. And, he brought me his notes and would confide his conclusions. For him, Abraham Martin would have been born before 1589, would have married twice and Anne was the daughter from his first marriage; finally, Martin could not have established himself in New France until 1619 or later.

Here is what the late genealogist based his reasoning on.

A) Anne Martin could not have been born in 1614 as is noted in the Tanguay Dictionary vol I p 415. She was born earlier, that is in 1603 (1) or 1604 (2).

## Descendants de/of Jean Cote

B) Marguerite Langlois, femme d'Abraham Martin, ne pouvait être mère de Anne; elle n'avait avec celle-ci que deux ou trois ans de différence. Marguerite Langlois a dû naître vers 1600 puisque ses derniers enfants sont baptisés en 1643, 1645 et 1648 (3)

C) Abraham Martin n'est pas venu au Canada en 1614, car il n'y eut aucun arrivage cette année (4)

D) La première femme européenne qui soit venue au Canada est Marguerite Vienne, épouse de Michel Colin, arrivée avec son mari en 1616 et décédée à Québec le 19 juillet de la même année. Michel Colin est mort le 24 mars précédent (5)

E) Abraham Martin a dû venir au Canada en 1619 avec sa 2<sup>ème</sup> femme Marguerite Langlois et Anne, sa fille d'un premier mariage.

Treize personnes seraient arrivées en 1619. Or d'après l'énumération on n'en trouve que 12, savoir:

Guillaume Poulin	1
Frère Pacifique	1
Capitaine Dufort	1
2 ménages	4 (5)?
3 serviteurs	3
2 ouvriers	2

La treizième personne serait-elle Anne Martin comprise dans l'un des deux ménages?

Les notes du regretté Lamontagne s'arrêtent là. Il avait l'intention de poursuivre ses recherches, mais la mort est venue et il nous a quittés sans réaliser son projet.

(1) recensements de 1666 et de 1667 où Anne Martin est dite âgée de 63 et 64 ans. Elle n'a pas été portée sur le recensement de 1681.

(2) "A travers les Régistres" de Mgr Tanguay p17 où Anne Martin est dite fille d'Abraham Martin et âgée de 25 ans; aussi son acte de sépulture à Québec, le 4 décembre 1684 où elle est dite décédée à l'âge d'environ 80 ans.

(3) Tanguay "Dictionnaire" Vol I p 415 (4) Tanguay "A Travers les Régistres" pp 6 et 19 (5) Tanguay "Dictionnaire" Vol I p 586

(extrait de "Recherches Historiques" Vol 29 1922-23 pages 116-117)

B) Marguerite Langlois, wife of Abraham Martin, could not be Anne's mother; there were only two or three years difference in their ages. Marguerite Langlois was probably born around 1600 since her last children were baptised in 1643, 1645 and 1648 (3).

C) Abraham Martin did not come to Canada in 1614, since there were no landings in that year (4).

D) The first European woman to arrive in Canada was Marguerite Vienne, wife of Michel Colin. She arrived in 1616 and died in Québec on July 19 of that same year. Michel Colin died the previous March 24 (5).

E) Abraham Martin probably arrived in Canada in 1619 with his second wife Marguerite Langlois and Anne, his daughter of first marriage.

Thirteen people arrived in 1619. But, looking at the list, we only find 12:

Guillaume Poulain	1
Frère Pacifique	1
Capitaine Dufort	1
2 Families	4(5)?
3 Servants	3
2 Laborers	2

Would the thirteenth person be Anne Martin counted in one of the two families?

The Notes of Lamontagne stopped here. He had every intention of carrying this to the end but death took him away before he completed his task.

## La seigneurie de l'Isle-Verte

L'Isle Verte est située sur la rive sud du st laurent entre Rivière du loup et Rimouski.

La plus grande partie de la seigneurie est sur la terre ferme, mais elle englobe aussi une île qui porte le même nom. Sa première appellation était la seigneurie de la rivière-du-Saumon, concédée en 1653 par le gouverneur Louis de Lauzon à son fils Louis, sieur de la Citière.

Le 19 janvier 1663, ce domaine fut alloué à Louis Couillard de Lespinay, fils de Guillaume Couillard et de Guillemette Hébert (fille de Louis Hébert).

Le 27 avril 1684, le gouverneur de la Barre et l'intendant de Meulles donnèrent ce fief à Augustin Rouer de la Cardonnière (20 ans) et à Louis Rouer d'Artigny (17 ans). Le 24 avril 1688, Augustin devint seigneur de Rimouski et Louis Rouer d'Artigny, le seul seigneur de l'Isle-Verte.

Le 1er mai 1701, Louis Rouer d'Artigny céda sa seigneurie de l'Isle-Verte à son cousin Pierre de Niort de La Noraye moyennant une rente annuelle de 240 livres (40\$ actuels).

Le 11 février 1711, Jean-Baptiste Côté (3), fils aîné de Jean (2) échangea ses deux terres de l'Isle d'Orléans contre la seigneurie de l'Isle-Verte. Le contrat fut passé devant le notaire de La Citière. Jean-Baptiste a alors 41 ans et son épouse 31. La famille compte déjà six enfants; quatre autres verront encore le jour. Dès le printemps de cette même année, la petite famille vint s'installer au manoir construit par le nouveau seigneur. Quelques colons habitaient déjà les lieux. Jean-Baptiste fut le 5e mais le premier seigneur résident de l'Isle-Verte. Il inaugura l'ère du développement agricole. Il mourut le 22 mars 1736 sans laisser de testament.

La moitié de ses biens passa à sa veuve Françoise Charlotte Choret. Son fils aîné Jean-Baptiste (4) hérita de l'autre moitié et devient seigneur à son tour.

En 1738, la veuve Françoise-Charlotte Choret céda ses biens à ses enfants moyennant une rente convenable. Le partage se fit par un long processus de tirage au sort et fut ainsi déterminé: l'aîné Jean-Baptiste et son épouse Geneviève Bernier reçurent 4 arpents compris entre la rivière Verte et le manoir. Les 11 autres arpents furent divisés entre les neuf autres enfants et le neveu Etienne élevé par la famille.

## The lordship of Isle-Verte

L'Isle Verte is situated between Rivière du Loup and Rimouski on the south shore of the St Lawrence River.

The largest part of the lordship is on dry land, but it also includes an island that carries the same name. It was first known as the lordship of the rivière-du-saumon, conceded in 1653 by the governor Louis of Lauzon to his son Louis, sieur of Citière.

January 19, 1663, this domain was given to Louis Couillard de Lespinay, son of Guillaume Couillard and Guillemette Hébert (daughter of Louis Hébert).

April 27, 1684, the governor de la Barre and l'intendant des Meulles gave this fief to Augustin Rouer de la Cardonnière (20 years old) and to Louis Rouer of Artigny (17 years old). April 24, 1688, Augustin became Lord of Rimouski and Louis Rouer of Artigny, the only Lord of Isle-Verte.

On the 1st of May 1701, Louis Rouer of Artigny gave up his lordship of the Isle-Verte to his cousin Pierre de Niort de la Noraye in return for a yearly pension of 240 livres (\$40).

On February 11, 1711, Jean Baptiste Côté (3), eldest son of Jean (2) exchanged his two farms on the Island of Orleans for the lordship of the Isle-Verte. The contract was executed before the notary of Citière. Jean Baptiste was 41 years old and his wife 31. The family already has six children; four others one will soon be added. Since the spring of this same year, the small family settled in the manor constructed by the new Lord. Some colonists had already settled there. Jean Baptiste was the 5th Lord but the first Lord to reside on Isle-Verte. He inaugurated the era of agricultural development. He died March 22, 1736 without a will.

Half of his possessions passed to his widow Françoise Charlotte Choret. His son eldest Jean-Baptiste (4) inherited the other half and became Lord in turn.

In 1738, the window Françoise-Charlotte Choret gave her possessions to her children in return for an appropriate pension. The sharing was by a long process determined by drawing lots: The eldest Jean-Baptiste and his wife Geneviève Berniers received 4 arpents (roughly acres) between Rivière Verte and the manor. The 11 other arpents were divided between the nine other children and a nephew, Etienne who had been raised by the family. Jean-Baptiste Côté (4), the 6th Lord, married Elizabeth Lepage. In 1759, he took part to the battle of the Plains of Abraham.

## Descendants de/of Jean Cote

Jean-Baptiste Côté (4), le 6e seigneur, épousa Elizabeth Lepage. En 1759, il prit part à la bataille des Plaines d'Abraham.

En 1780, il concéda une terre de 10 arpents de front à Peter Fraser. Ce dernier obtint, en 1786, le droit de s'établir dans la partie ouest de l'île Verte. A cette époque, elle appartenait à tous les membres de la famille Côté. En 1796, Fraser se fit octroyer la partie est de l'île. Donc, il eut toute l'île. Alors commença le morcellement de la seigneurie. En 1805, Régis Garon acquit de larges étendues de terre, partie appelée Villera y.

Le 7e seigneur, Jean-Baptiste Côté (5), époux de Marie-Louise Côté (fille de Joseph-Claude Côté) confia, en 1809, l'administration de la seigneurie à son fils aîné Barthélémy à cause de sa santé.

Le 22 février 1813 il donna la seigneurie à Barthélémy, qui devint le 8e seigneur de l'Isle-Verte. Cette même année intervint Louis Bertrand qui jouera un rôle important dans l'avenir de la seigneurie. Barthélémy épousa Marie-Victoire Durand. Le 31 juillet 1819, il céda la seigneurie à Louis Bertrand par bail emphytéotique (bail de longue durée) de 29 ans.

Le 20 novembre 1846, Barthélémy donna ses biens à son fils Jean-Baptiste Côté (époux d'Adèle McClure), qui devint le 9e et dernier seigneur de l'Isle-Verte. Il mourut à l'âge de 82 ans en 1920.

Le bail de Louis Bertrand se terminait en 1848. Le 23 octobre 1849, il achetait les droits seigneuriaux de Jean-Baptiste Côté, le dernier des seigneurs Côté. Le 2 juillet 1850, Louis Bertrand céda la seigneurie à son fils Charles.

Le 18 décembre 1854, une loi abolissait le régime seigneurial.

Les Côté furent seigneurs de l'Isle-Verte du 11 février 1711 au 23 octobre 1849, c'est-à-dire pendant 138 ans.

Si vous voyagez à Rimouski, vous passerez à l'Isle-Verte. La route nationale y porte le nom de Seigneur Côté. Une rue du village s'appelle St-Jean Baptiste.

In 1780, he conceded a parcel of land of 10 arpents of frontage to Peter Fraser. In 1786, Peter obtained the right to settle in the west part of Isle-Verte. At that time, it all belonged to members of the Côté family. In 1796, Fraser obtained the eastern the part is the island. Therefore, he owned all of the island. Then started the partitioning of the lordship. In 1805, Régis Garon acquired large extents of land, which was known as Villera y.

The 7th Lord, Jean Baptiste Côté (5), spouse of Marie-Louise Côté (daughter of Joseph-Claude Côté) confided, in 1809, the administration of the lordship to his eldest son Barthélémy because of poor health.

On February 22, 1813 he handed over the lordship to Barthélémy Côté, who became the 8th Lord of the Isle-Verte. This same year entered Louis Bertrand who will play an important role in the future of the lordship. Barthélémy married Marie-Victoire Durand. July 31, 1819, he conceded the lordship to Louis Bertrand though a long term lease of 29 years.

On November 20, 1846, Barthélémy gave his possessions to his son Jean Baptiste Côté (spouse of Adele McClure), who became the 9th and last Lord of the Isle-Verte. He died at the age of 82 years in 1920.

Louis Bertrand's lease ended in 1848. On October 23, 1849, he purchased the manorial rights of Jean Baptiste Côté, the last of Côté lord. On July 2, 1850, Louis Bertrand gave the lordship to his son Charles.

On December 18, 1854, a law abolished the manorial regime was proclaimed.

Côtés were Lords of Isle-Verte from February 11, 1711 to October 23, 1849, that is for 138 years.

If you travel to Rimouski, you will travel through Isle-Verte. The national road carries the name of Seigneur Côté. A street in the village is called St-Jean-Baptist.

## Comment trouver vos Ancêtres

Les pages suivantes contiennent les descendants de Jean Côté, notre ancêtre qui est venu au Canada en 1634. Chaque ligne des données des descendants contient l'information suivante: 1) le numéro du mariage, qui est un numéro unique qui identifie un mariage spécifique d'un Côté (si une personne se marie plus d'une fois, il y aura un différent numéro pour ce mariage spécifique Côté et son époux(se). 2) le premier nom du Côté 3) le premier et dernier nom de l'époux(se). 4) la date du mariage et 5) l'endroit du mariage.

Les données sont organisées en groupe de famille avec la première ligne du groupe ayant un ++ ou -- au début. Ceci démontre les parents du groupe de la famille. Un ++ veut dire qu'il y a d'autres d'ancêtres et un -- veut dire qu'il n'y a plus d'ancêtres connus pour cette famille. Les numéros de mariage sont organisés en ordre numérique ascendant. Le numéro du mariage des parents du chef du groupe (la ligne ++) de famille se trouve sur la ligne précédente (e.g 00127 = Parents) pour faciliter la recherche. Faites vos recherches avec l'index des époux(se) premièrement. C'est plus facile.

La meilleure façon de comprendre est d'employer un exemple. Supposons qu'un de vos ancêtres est Augustin Côté et il a épousé Marie Josette Chabot en 1764 à St Pierre, I.O.

En cherchant à travers l'index et les données du mariage, vous découvrirez au bas de la page 29 est la ligne décrivant le mariage de votre ancêtre (00234) (quelle chance!). Vous notez que cette ligne n'est pas un groupe de la famille (++) ou (--) il faut trouver le groupe (++00134 Pierre Côté). Notez que le mariage des parents du chef du groupe sont 00114 = Parents. Il faut donc trouver le groupe de famille ++00114 (Jean Côté) (page 27 au bas) ensuite ++00101 (Jean Côté) page 27 au milieu et finalement --00100 Abraham Côté le dernier des ancêtres (--) sur la page 27.

Avec des épreuves et un peu de temps, vous seriez capable de vous trouver assez facilement dans ces données. Les indexes se trouvent à la fin du livre.

## How to Find your Ancestors

The following pages contain the descendants of Jean Côté, our ancestor that came to Canada in 1634. Each line of the descendants data contains the following: 1) marriage number, which is a unique number that identifies a specific marriage of a Côté (if a person marries more than one time, there are different numbers for that specific Côté and his spouse. 2) the first name of the Côté. 3.) the first and last name of the spouse. 4) the date of marriage and 5) the location of the marriage.

The data is organized in Family groups with the first line of the group having a ++ or -- in front of it. This is the parents of the family group. A ++ means that there are more ancestors to this line and a -- means that there are no known ancestors for this line. The marriage numbers are listed in numerical ascending order. The parent marriage number of the family group head (++) is shown above the family group (e.g 00127 = Parents) for easier searching. Look in the Spousal index first it will make it easier.

The best way to understand is to use an example. Let us suppose that one of your ancestors is Augustin Côté and he married Marie Josette Chabot in 1764 at St Pierre, I.O.

Looking through the index and the marriage data you discover that near the bottom of page 29 is the line describing your ancestor's marriage (00234) (lucky you!). Since this is not a family group record (++) or (--) you now go back until you find a family group (++) or (--) which is ++00134 Pierre Côté which says that there are more ancestors. Note the line above this one is "000114 = Parents". You now can look backwards in the marriage data and look for the family group record (which should be ++00114 Jean Côté) near bottom of page 27 then ++00101 Jean Côté in the middle of page 27 then --00100 Abraham Côté on the page 27. ( -- says that this is where it ends)

It may take a bit of trial and error but the list has been made simple to use.

There are separate indexes by Côté and spouse at the end of the book
